Dental Card.

I wish to say a word to the Gentlemen and Ladies of Bangor and vicinity. As parents you would do more for your children than for yourselves. A gentleman in Bangor, who is fifty years old, was in my office in April and said that he would give me one hundred dollars if I would save one tooth in his mouth without extracting it. But he was too late. If a man will thus value one tooth, what should he do for his children.

Now if you cannot save your own, yet can save the teeth of your children. Almost every day some father or mother will come to the office with some child to have the extract some aching tooth. I examine the mouth and find that the painful tooth is not a temporary but a permanent one. The parent is surprised; you are wrong, she has never had but one tooth there, she will certainly have a permanent tooth when this one is out of the way.

A very large proportion of our patients, have never known, or have forgotten, that in their first set we have but twenty teeth. And that all teeth that grow back of the twenty are permanent teeth, thirty-two in all. I have extracted within the past year, several permanent teeth for one little girl who was not eleven years old. Will you parents suffer your children to suffer for their life time by your neglect? If by neglect you have lost your natural teeth, a good substitute will well you to go for the best artificial ones. Hundreds of people in Bangor and vicinity will endorse by their own experience all that he has said in his paper.

DR. J. K. LINCOLN.—Though we have not the pleasure of a personal acquaintance with the gentleman, yet we have reason to believe that he is a most skilful practitioner of the dental art. At least, he has made one old lady in our house happy young again, and has fitted, by art, a pair of jaws to masticate the food which nature [illegible] [illegible] the [illegible] [illegible] [illegible] [illegible].

My price now is $20 for a whole set of Artificial teeth, $10 for a half set. [illegible]

PURIFY THE BLOOD AND BEAUTIFY THE COMPLEXION

by using

HELMBOLD'S CATAWBA GRAPE-JUICE PILL

AND

HELMBOLD'S HIGHLY CONCENTRATED FLUID EXTRACT SARSAPARILLA.

This is the time to use good blood-renewing, purifying and invigorating medicines.

HELMBOLD'S FLUID EXTRACT SARSAPARILLA AND HELMBOLD'S FLUID EXTRACT GRAPE JUICE PILLS ARE THE BEST AND MOST RELIABLE.

One bottle of Helmbold's Fluid Extract Sarsaparilla equals in strength one gallon of the syrup of decoction as made by druggists, and a wine-glass added to a pint of water equals the celebrated Lisbon diet drink, a delightful and healthful beverage.

The Grape-Juice Pill is composed of fluid extract Catawba grape-juice and FLUID EXTRACT RHUBARB.

Useful in all diseases requiring a cathartic remedy, and far superior to all other purgatives, such as salts, magnesia, &c.

Helmbold's Grape-Juice Pill is not a patented pill put up as those ordinarily vended, but the result of ten years' experimenting and great care in preparation.

SAFE FOR AND TAKEN BY CHILDREN;

NO NAUSEA; NO GRIPING PAINS, BUT MILD, PLEASANT, AND SAFE IN OPERATION.

Two bottles of the Fluid Extract of Sarsaparilla and one bottle of the Grape-Juice Pills are worth their weight in gold to those suffering from bad blood, poor complexion, head-ache, nervousness, wakefulness at night, costiveness and irregularities, and to those suffering from broken and delicate constitutions it will give new blood, new vigor, and new life.

THE CATAWBA GRAPE PILLS are done up with great care and in handsome bottles, and will surpass all those vended in wooden boxes and carelessly prepared by inexperienced men, comparing with the English and French style of manufacturing.

All of H. T. HELMBOLD'S Preparations are Pharmaceutical, not a single one being patented, but all on their own merits.

To dispel any impression or prejudice that might exist in the minds of many against my preparations from the publicity given through advertising, and that I am and have been a druggist for a period of twenty years, and more conclusively to prove this, see letter:

[From the largest manufacturing Chemists in the world.]

NOVEMBER 4, 1854.

I am acquainted with Mr. H. T. Helmbold; he occupied the drug store opposite my residence, and was successful in conducting the business where others had not been equally so before him. I have been favorably impressed with his character and enterprise.

FRENCH

FIRE-PROOF

LAMP CHIMNEYS,

These chimneys, which are now for the first time offered to the public, possess all the essentials of a heat-resisting Chimney. They are well made, of a superior quality of glass, each one finished smoothly at the bottom, and being carefully annealed or tempered, will not break from the most intense heat of a lamp flame.

A trial of their merits will convince the consumer that, although costing a trifle more than the ordinary class of Chimneys in use, they will prove a source of much economy in the use of Kerosene, a saving of untold trouble and annoyance, and a preventative of many accidents hitherto resulting from the breakage of Chimneys upon burning Lamps.

CORRECT.

One morn while going down the street,
I met two gents intently talking,
Their earnestness seemed strange to me,
So I slacked up my pace in walking.
One was a *large man, very fat,*
The other sickly, lean and puny;
The contrast was so very great,
It really seemed extremely funny.
And this I heard the lean man say,
"What can I do to make me healthy?
I'd rather have that *fat* you wear,
Than to be made immensely wealthy."
"I'll tell you then," Fatty replied,
"Were I like you all skin and bones,

BONDS

—OF THE—

EUROPEAN AND NORTH AMERICAN RAILWAY CO.

THE E. & N. A. RAILWAY is completed from Bangor Maine, to St. John, New Brunswick, a distance of 202 miles,—with the exception of 58 miles between Winn, Me., and the boundary line of the State at Vanceboro'. On this part of the track is now being laid, both from Winn eastward and from Vanceboro' westward, and the work will be completed and trains running from Bangor to St. John in September next.

This road will then be

THE ONLY RAILWAY

CONNECTING THE UNITED STATES AND THE BRITISH PROVINCES (New Brunswick and Nova Scotia). The population of the maritime Provinces is about ONE MILLION, and all the land travel, freight, mails, &c., between them and the United States, will pass over this trunk line, which is WITHOUT COMPETITION. Although not yet completed, the business of the road is already far greater than its most sanguine friends predicted, and is continually increasing.

The net earnings from Local Business alone on the 56 miles completed in Maine, already exceed the interest on two and one quarter millions of dollars, and will be largely increased after Sept. next by the business to and from the Provinces.

To complete this road, and to equip it as fully as its present large business and the immediate increase consequent upon its completion, requires,—the Company has issued its Bonds to the amount of Two Millions of Dollars, secured by a

FIRST & ONLY MORTGAGE

ON ITS ENTIRE ROAD AND PROPERTY FROM WINN TO VANCEBORO' (besides a Second Mortgage on the entire road and equipments from Bangor to Winn, 56 miles. This portion cost some $2,300,000, and the only lien thereon is a mortgage to the city of Bangor for $1,000,000)—and, in addition thereto, by a FIRST AND ONLY MORTGAGE on

800,000 Acres of Land!

Said lands being the same granted by the State of Maine to aid the construction of this road. They are situated along the Penobscot and St. John rivers, and are heavily timbered and valuable. Large tracts, especially in the fertile Aroostook Valley, (the finest agricultural district in the State,) are valuable for farming lands as well as for their timber. This immense grant of lands equals about

14,000 Acres to each Mile

of Railroad with which they are mortgaged. They cover 1250 square miles (nearly as large as the State of Rhode Island, which is 1306 square miles) and are of great value.

Thus, besides the mortgage of the Railway, its equipments, &c., which alone is ample security for the Bonds, there are timber and farm lands to the amount of

400 ACRES TO EACH BOND

also pledged, to ensure the payment thereof.

The Bonds are for $1000 each, due March 1890, bear interest at

Six Per Cent, Per Annum,

PRINCIPAL AND INTEREST PAYABLE IN

GOLD COIN.

Free from U. S. Taxation.

Coupons payable March 1 and September 1, in New York. Bonds registered if desired. Coupons made payable (£6 each) in London, England, if preferred.

SINKING FUND—All proceeds of sales of land, as well as of timber and other products therefrom, are, by the Trustees, to be invested in those Bonds if they can be bought at par or less; otherwise in United States, State or Municipal Securities. And on July 1, 1879, and annually thereafter until these Bonds become due or are all paid, the E. & N. A. Railway Co. is bound to pay to the Trustees a sum of money equal to one per cent. of the amount of Bonds outstanding. Such amounts, and all interest received on securities, belonging to the SINKING FUND are to be invested as above stated, and these accumulations are solely for the purpose of additionally providing for the redemption of these Bonds. The Sinking Fund constitutes a third great element of security and strength, and adds to the safety of these Bonds.

The Trustees are Hon. HANNIBAL HAMLIN, of Bangor, Me., and J. EDGAR THOMSON, Esq., of Philadelphia, Pa.

The Trustees are authorized to receive the Bonds at Par and Accrued Interest in payment for any of the Lands at their appraised value.

These very desirable securities for sale at

90 AND ACCRUED INTEREST IN CURRENCY.

U. S. Bonds and all marketable securities received at highest market price in exchange for these Bonds, and can be sent by Express and these returned by Express, free of expense to the purchaser.

Pamphlets giving further particulars are forwarded the connections and business, with Maps, showing the location and lands of this road, sent free on application to

ELIAS MERRILL,

Principal Agent for the Company for the Sale of Bonds,

BANGOR, MAINE.

☞ On completion (in 1872) of 60 miles of Railroad now building, between St. John, N. B. and Halifax, N. S. there will be an unbroken line of Railway from Halifax to all the chief cities of the United States, and as two or three days of ocean travel can be avoided, and about 36 hours' time saved from New York in going to or coming from Europe, by rail to or from Halifax,—a large business in passengers, mails and freight will thereby be added to the traffic over the E. & N. A. Railway.

Republican Nomination.

FOR GOVERNOR,

Hon. Sidney Perham

OF PARIS.

THE GREAT TREATY

Although there may be no mysterious significance in the coincidences attending the negotiation of the great Anglo-American Treaty, yet the fact that this peaceful adjustment of our controversies with Great Britain was ratified on the anniversary of the Battle of Bunker Hill, and officially promulgated by the President of the United States on the anniversary of the assertion of our independence of the British Crown can hardly fail to be suggestive, not only of the magnificent growth of our nation but also of the attainment of an enlightened civilization which enables two of the most powerful peoples of the earth to dispose of threatening complications without the arbitrament of the sword. The ferocity of the recent struggles in Europe forbids the hope for an immediate abolition of the horrors of war, and the evil propensities of human nature will doubtless continue to foment discord and strife until we reach a still higher life but the recent example of the United States and Great Britain is the grandest illustration ever given to the world of the triumph of reason over passion, and must exert a most powerful influence in behalf of universal peace.

The Treaty of Washington is honorable to both nations. Great Britain has offered us a cordial, if somewhat tardy recognition of [illegible] and our Government has met the overtures in a spirit of generous forbearance and liberal recognition of the concessions made worthy of a powerful and self-reliant people. The animosities which have rankled for years between the Mother Country and her refractory offspring which has grown up to be the Colossus of the Western World, should be buried with the issues so amicably disposed of by the Treaty of Washington [illegible] accepting in good faith the friendly declarations of the England of to-day we should [illegible] the treaty mark a new era in our relations with a people more closely allied to us in blood language and character, than any other on the globe. It should not be forgotten that the injustice which we have suffered at the hands of England in the past has proceeded almost entirely from an aristocratic minority, who have ruled, and to a great extent misrepresented the people, that the equitable adjustment of our demands has [illegible] due to the determination of the masses of England that justice should be extended [illegible] in spite of the positions assumed by those who trembled at the influence of republican institutions, and that as the English people become more and more directly represented in the [illegible] of the national policy, their feelings of good will toward the United States find more frequent and cordial expression. There are many reasons why England and America should continue to dwell in harmony and foster the most amicable relations and the rapid strides of republicanism in Europe will strengthen the bonds existing between two nations who hold in common [illegible] of the glory of the past and are destined in the future to be still more closely identified with the onward progress of humanity.

It is especially striking to note, that the greatest military chieftain of the New World should have occasion on the anniversary of his country's independence to proclaim officially the peaceful achievement which is one of the greatest triumphs of his career. That a warrior should labor so zealously for peace, when the inflamed prejudices of his country-men [illegible] him into the arena of [illegible] will be remembered as long as the [illegible] which he won in crushing the [illegible], the Treaty of Washington contributing to render his civil administration as [illegible] his splendid military career.

SENATOR TRUMBULL'S FOURTH OF JULY ORATION. — Senator Trumbull in his Fourth of July oration at Galesburg, Ill. in referring to the wrongs sustained by us from European monarchies said that when the rebellion ended [illegible] the voice of a single Senator carried [illegible] and [illegible] into courts and palaces the High Commission [illegible] the depredations upon our commerce and agreed to pay for them and he rejoiced that the American people had the patience to await such a consummation that we did not go to war with a nation of the same race, language and religion that is doing so much for civilization and Christianity. He expressed himself decidedly in favor of the education of women, and hoped the day was not distant when women would receive the same pay for the same service as men. He held that "The right of women to participate in the Government of the country whenever they ask for it, cannot [illegible] and the nation would be all the [illegible] for their participation." The Senator concluded by saying that the [illegible] of the late war were brought about by a departure from the principles of liberty,—therefore vow yourselves and teach your children, to wage eternal hostility against all [illegible] and nations who are opposed to the doctrine that 'all men are created free and equal.'

THE CONFLICT OF AUTHORITY IN UTAH. A serious conflict between the Mormon Militia and United States troops was narrowly escaped at Salt Lake City by the tardy discretion of the Mormon officials. In defiance of Acting Governor Black's proclamation prohibiting the parade of the Nauvoo militia, Wells, the commander of the local military, determined to bring out his men at the risk of a collision. Gen De Trobriand, however marched into the city with three companies of the 13th Infantry and a company of cavalry headed by a regimental band, and this demonstration served to change the purpose of the Mormons, who disarmed the militia and changed the uniforms of the men in order to form a procession of Civilians. The U S troops were drawn up at a convenient point and kept in hand, and the U. S Marshal had also a large force of deputies in readiness to sustain the National authority. The Mormons contented themselves wisely, with denouncing the Federal officers in their speeches at the Tabernacle and refrained from precipitating a conflict of the forces, which would have been serious in its results. Curiously, Brigham Young, who was announced to preside, was not seen or heard from during the day.

LYNCH LAW IN ILLINOIS.—Nearly a thousand persons of the town of Watseka, Ill., and surrounding country, including men, women and children, proceeded to the jail Wednesday night and took therefrom Martin Mera, who brutally murdered his son ten years old, and after giving him 20 minutes to pray, a rope was placed around his neck, thrown over a limb of a tree, and hundreds of ready hands hauled him up and held him until he was dead. The leader of the hanging party was Dr. Daniels, of Gilman, and he and his [illegible] claim that [illegible] of manslaughter [illegible] previous to [illegible] readopted Catholicism.

Victor Hugo received [illegible] votes from Paris for the Assembly.

The New Hampshire Legislature has voted to adjourn on Saturday next.

In the Territorial Legislature on Wednesday, the Judiciary Committee of the House of Delegates reported adversely on the petition of a number of woman suffragists, praying for the passage of an act conferring suffrage on women in the District of Columbia.

The N Y World publishes a report of a long interview with Wendell Phillips on the 4th of July, in which Mr. Phillips gives his views on the political situation. He believes in Butler for Governor of Massachusetts, and consequently thinks the Democrats have an excellent chance of carrying the next Presidential election.

The Supreme Court at Trenton N J., on Wednesday decided that the Democratic incumbents of the city offices in Paterson have a right to their positions until their successors are appointed by a vote of the members. This removes the dead-lock in the city government which has existed since April, and causes great rejoicing among the Democrats.

Governor Cooke, of Washington, with characteristic liberality, has advanced a sufficient amount of money—some $20,000 or $30,000—to pay the school teachers their salaries to the close of the school year, August 31st. The Territorial Legislature failed to make provision for the payment, but after the necessities of the teachers were represented to the Governor, he agreed to advance the money.

THE MISSISSIPPI KU-KLUX TRIALS.—The closing argument for the defence in the Ku Klux cases on trial at Oxford, Miss., was resumed Wednesday by Col Dowd. He said the indictment was for the murder of citizens of Mississippi by citizens of the same State, and argued that the power to determine a case of that character was given to the people to the State government before the formation of the Constitution of the United States. He said the first count in the indictment which charged the defendant with murder by conspiracy in disguise, was founded on the prohibitory powers of the United States, and not in a grant of power to the government. The second count was founded on the Civil Rights Bill and Enforcement act. He contended that the indictment founded on the prohibitive power in the Constitution was absurd, and said the whole legislation of Congress on the Civil Rights Bill and Enforcement Law was directed to the protection of citizens of the United States and not to persons.

Judge Hill held that life and liberty among communities were intended to be secured under the amended Constitution, and where two or more persons conspire together to deprive a citizen of the United States of these rights, it was a violation of the Enforcement act.

Ten of the prisoners were released on bail, but the others did not succeed in obtaining it.

YEARS OF EXPERIENCE have proved, beyond the possibility of a doubt, that LATHAM'S CATHARTIC EXTRACT is the most successful and effective remedy extant for the cure of Dyspepsia Constipation, Biliousness, and diseases emanating from a corrupt state of the blood. The high estimation it is held in by those of the medical profession and the thousands who have already experienced such beneficial results by its use, should, we think, entitle it to the earnest consideration of those who are so afflicted. july6 snlw

How We Used to be Physicked. Who does not remember the time when spring purgation was considered indispensable to summer health? No matter for wry faces, the inevitable salts and senna, rhubarb, or calomel and jalap, must be administered. These "spring medicines," the youngsters were told, were to keep them hale and hearty during the summer. We all know now that this was a fallacy; that new vigor, not depletion, is what is required at the commencement of the summer solstice. As a preparation for the enervating effects of oppressive summer weather, a course of Hostetter's Stomach Bitters is highly expedient. This famous vegetable preparation has three prominent properties. It renovates, purifies, and regulates all the functions of the body. It is composed exclusively of pure vegetable productions viz the essential principle of Monongahela Rye, and the most efficacious tonic and alterative roots, barks, and gums known to medical botanists. Hence it is an absolutely safe medicine, and no tincture of the Pharmacopoeia can compare with it either in purity, or in the variety of its objects and its comprehensive results. Happily for mankind, the theory that it was necessary to prostrate a patient in order to cure him is forever exploded, and the true philosophical doctrine, that vigor is the great antagonist of disease, has taken its place. Hostetter's Bitters is an invigorant and hence it is the proper medicine for the feeble at this most trying season of the year. Be sure that you obtain the genuine article, as there are innumerable vile imitations in the market. Look at the government stamp, the engraved label, and the name blown into the glass. Hostetter's Stomach Bitters is sold in bottles only. Jan. 18, 1871. July8 d&wly3

CONSUMPTION. ITS CURE AND ITS PREVENTIVE, By J. H. SCHENCK, M. D. Many a human being has passed away for whose death there was no other reason than the neglect of known and indisputably proved means of cure. Those near and dear to family and friends are sleeping the dreamless slumber into which, had they calmly adopted DR JOSEPH H. SCHENCK'S SIMPLE TREATMENT, and availed themselves of his wonderfully efficacious medicines they would not have fallen. Dr Schenck has in his own case proven that wherever sufficient vitality remains, that vitality by his medicines and his directions for their use, is quickened into healthful vigor. In this statement there is nothing presumptuous. To the faith of the invalid is made no representation that is not a thousand times substantiated by living and visible works. The theory of the cure by Dr Schenck's medicines is as simple as it is unfailing. Its philosophy requires no argument. It is self assuring, self convincing. The Seaweed Tonic and Mandrake Pills are the first two weapons with which the citadel of the malady is assailed. Two-thirds of the cases of consumption originate in dyspepsia and a functionally disordered liver. With this condition the bronchial tubes sympathize with the stomach. They respond to the morbific action of the liver. Here then comes the culminating result, and the setting in, with all its distressing symptoms, of CONSUMPTION. The Mandrake Pills are composed of one of Nature's noblest gifts—the Podophillum Peltatum. They possess all the blood-searching, alterative properties of calomel but unlike calomel, they "LEAVE NO STING BEHIND." The work of cure is now beginning. The vitiated and mucous deposits in the bowels and in the alimentary canal are ejected. The liver like a clock, is wound up. It arouses from its torpidity. The stomach acts responsively, and the patient begins to feel that he is getting, at last, A SUPPLY OF GOOD BLOOD. The Seaweed Tonic, in conjunction with the Pills, permeates and assimilates with the food. Chylification is now progressing, without its previous tortures. Digestion becomes painless, and the cure is seen to be at hand. There is no more flatulence, no exacerbation of the stomach. An appetite sets in. Now comes the greatest Blood Purifier ever yet given by an indulgent father to suffering man. Schenck's Pulmonic Syrup comes in to perform its functions and to hasten and complete the cure. It enters at once upon its work. Nature cannot be cheated. It collects and ripens the impaired and diseased portions of the lungs. In the form of gatherings it prepares them for expectoration and lo! in a very short time the malady is vanquished, the rotten throne that it occupied is renovated and made new, and the patient, in all the dignity of regained vigor steps forth to enjoy the manhood or womanhood that was GIVEN UP AS LOST. The second thing is, the patients must stay in a warm room until they get well, it is almost impossible to prevent taking cold when the lungs are diseased, but it must be prevented or a cure cannot be effected. Fresh air and riding out, especially in this section of the country in the fall and winter season, are all wrong. Physicians who recommend that course lose their patients, if their lungs are badly diseased; and yet, because they are in the house they must not sit down quiet, they must walk about the room as much and as fast as the strength will bear, to get up a good circulation of blood. The patients must keep in good spirits—be determined to get well. This has a great deal to do with the appetite and is the great point to gain. To despair of cure after such evidence of its possibility in the worst cases, and moral certainty in all others, is sinful. Dr Schenck's personal statement to the Faculty of his own cure was in these modest words: "Many years ago I was in the last stages of consumption, confined to my bed, and at one time my physicians thought that I could not live a week, then like a drowning man catching at straws I heard of and obtained the preparations which I now offer to the public, and they made a perfect cure of me. It seemed to me that I could feel them penetrate my whole system. They soon ripened the matter in my lungs, and I would spit up more than a pint of offensive yellow matter every morning for a long time. As soon as that began to subside, my cough, fever, pains and night sweats all began to leave me, and my appetite became so great that it was with difficulty that I could keep from eating too much. I soon gained my strength and have grown in flesh ever since." "I was weighed shortly after my recovery" added the Doctor, "then looking like a mere skeleton; my weight was only ninety-seven pounds; my present weight is two hundred and twenty-five (225) pounds, and for years I have enjoyed uninterrupted health." Dr Schenck has discontinued his professional visits to New York and Boston. He or his son Dr J H Schenck Jr still continue to see patients at their office No 15 North Sixth street, Philadelphia, every Saturday from 9 A. M. to 3 P. M. Those who wish a thorough examination with the Respirometer will be charged $5. The Respirometer declares the exact condition of the lungs, and patients can readily learn whether they are curable or not. The directions for taking the medicines are adapted to the intelligence even of a child. Follow these directions, and kind Nature will do the rest, excepting that in some cases the Mandrake Pills are to be taken in increased doses; the three medicines need no other accompaniments than the ample instructions that accompany them. First create appetite. Of returning health hunger is the most welcome symptom. When it comes, as it will come, let the despairing at once be of good cheer. Good blood at once follows, the cough loosens, the night sweat is abated. In a short time both of the morbid symptoms are gone forever. Dr Schenck's medicines are constantly kept in tens of thousands of families. As a laxative or purgative the Mandrake Pills are a standard preparation; while the Pulmonic Syrup, as a cure of coughs and colds may be regarded as a prophylacteric against consumption in any of its forms. Price of the Pulmonic Syrup and Seaweed Tonic $1 50 a bottle, or $7.50 a half dozen. Mandrake Pills 25 cents a box. For sale by all druggists and dealers. GEO. C. FURTHER DETAILS OF THE ELECTIONS—THE REPUBLICANS EVERYWHERE IN THE ASCENDANT.

Paris, July 6. The details of the army vote are coming in. The garrison of Lille gave 700 votes for the Republican candidates and only 10 for the Legitimists. The city of Calais gave 3,113 Republican, against 800 Monarchical votes. In various other places heard from the Republicans are in the ascendant. Col. Bisson, commandant of the troops at Bordeaux, suggested to the soldiers before the election, that as the Republic only could save the country, they had better vote for Republican candidates. The people of Bordeaux have sent a petition to General De Cissey asking him to disavow that course pursued by Col. Bisson. The latest returns from the Department of the Seine elect Moreau to the Assembly in place of Boreelet, which increases the Republican delegation from the Capital to seven.

MURDERS AND SUICIDE.

An obscure man has murdered Varne, Mayor of Sache in the Department of Indre et Loire. The curate of the parish, while bringing oils to anoint the body of the murdered man, was also assassinated. The most intense excitement against the murderer prevailed in the town and De Lallande committed suicide to escape punishment for his crime.

REBUILDING THE MONUMENTS.

Paris, July 6. A loan is to be raised by the municipality of Paris for the purpose of rebuilding the monuments destroyed during the siege.

A DESERTER REWARDED.

Jules Ducotel, a traitor from the Communists to the Versailists, has been accorded the cross of the Legion of Honor.

PERSONAL ITEMS.

General McaMhon has been re-instated in command of Versailles. Duke De Nemoures and Schneider, formerly President of the Corps Legislatif are in Paris. An election is to be held Sunday next to fill the vacancies in the Assembly where one person is to be chosen by the different constituencies. Prince De Joinville having declared for the Republic, will undoubtedly succeed in the Department of Lamanche.

THE GERMANS IN FRANCE.

General Manteuffel and Staff have paid a visit of ceremony to Thiers. The General subsequently dined with the President. AUSTRIA

FOURTH OF JULY BANQUET.

Vienna, July 5. The American Minister, John Jay, gave a dinner yesterday at which all the Ambassadors at the Court of Vienna were present. ... Von Beust proposed the health of President Grant, who he said was Chief of a great Republic whose brave soldiers had preserved the Union, and whose swords were now changed to olive branches. Minister Jay expressed the opinion that the Anglo-American treaty would prevent wars hereafter by the establishment of an International court of arbitration.—Count Von Beust, in reply, doubted the ability of any power to restrain the natural quarrelsomeness of mankind, and said that hitherto mediation had only been tolerated and arbitration rejected. He expressed his sincere belief that the United States were friendly toward all Powers, and concluded by drinking to the long life and prosperity of the Great Republic. Speeches were made by other prominent personages, in all of which the most friendly sentiments was expressed towards the United States.

The Submarine Messenger, a journal devoted to the interests of deep sea telegraphing says, "The Atlantic cable companies have adopted an irritating course which occasions great dissatisfaction and general protest in this country. The government is anxious to increase the facilities of the press. From this fact the cable companies should take a lesson. The press, however, will protect itself, and the press and public are allies. We must have an effective opposition. The Liverpool Chamber of Commerce has already set the ball in motion, and the movement is spreading. The existing companies pay ten per cent. to their stockholders. The growing business of Germany is looking out for a line which the gulled public is in the right temper to encourage."

The Ku Klux investigating committee today examined Judge Pettis and Col. Pugh, of Alabama. Their testimony was corroborative of the evidence previously given by Gov. Lindsay and the other conservative witnesses that no such organization as the Ku Klux exists in Alabama, and that good order and respect for law prevail in that State. Colonel Pugh, at the outbreak of the war, was a member of Congress from Alabama, and afterwards a member of the Confederate Congress from the same State. J. M. Justice, of Rutherford county, North Carolina, a prominent native Republican member of the Legislature of that State, was examined at great length. Prior to the examination of Pettis and Pugh, he gave some very direct testimony in relation to the affairs in his station.—He testified that some five weeks ago a party of 40 or 50 armed and disguised men came to his house, took him out of bed, and in the presence of his family beat him fearfully with clubs and pistols. They then carried him into the woods, and threatening his life, made him promise that he would not come to Washington to testify before this committee concerning various outrages previously committed in that vicinity. They then left him, and he managed to get home, where he was confined to his bed for three weeks, from the effect of severe internal injuries caused by his beating.

THE NEW YORK ORANGEMEN.—The Orangemen of New York city met Wednesday night at Military Hall in the Bowery, to decide whether the Society should or should not parade next Wednesday. Some of those present advised that the parade be given up, urging that it was disgraceful to perpetuate on American soil the feuds of another country. This view, however, found few adherents, the great majority being in favor of carrying out the parade at all hazards. The authorities, it was claimed, would be compelled to protect them in case they paraded. One of the speakers said that when the Fenians gave up their processions, and St. Patrick's Day should no longer be publicly celebrated, the Orangemen would allow the glorious 12th to remain uncommemorated; but not before.

YE DUST.

In response to our request for a "Pome on Dust," we have received the following, which, though it dusts us down somewhat, is too good to be dampened.]

The dust you "blow" and so despise
Returns again to your own eyes;
Don't let your angry passions rise!—
You're made of nothing more.
My sailing teaches me to know
How we poor mortals live below—
How we are made and where we go—
At least the earthy store.
Do we not in the Scriptures see
"Dust thou art and dust shalt be?"
Take a timely word from me,
For that irreverent pen.
When you've changed your species here
For that one in a higher sphere,
If Gospel's true, you'll be I fear,
"Blowing round" here again!

ÆSCULAPIUS JUVENIS.

WEST POINT. The West Point Board of Visitors report to the Secretary of War that 96 applicants were examined, 70 of whom were rejected on account of physical disability, and 22 for defective scholarship.

They recommended that chaplains be appointed for four years, denominations taking turns. That more prominence be given to Spanish—that the professor of ethics and belles lettres be taken from civil life—that a preparatory course be established—that the ... of ... be abolished and ... [illegible] ... to ... twenty years ago be restored, which puts all on an equal footing.

BUSINESS ITEMS.

DR. GAGE, THE WONDERFUL NATURAL PHYSICIAN, AT BANGOR. This most successful Physician has taken Parlors at the Franklin House, Bangor, from July 8th until about the 20th, which will give the afflicted an ample opportunity to avail themselves of his remarkable power to heal. From his great success in other cities in our State for the past three seasons, undoubtedly a majority of our readers are already aware of his ability to cure. He cures thousands of cases without medicines, as is shown by hundreds of certificates of responsible parties in our State, a few of which will be published in a few days, or as soon as we find space. His manner of treatment is different from all other Physicians, and has proved eminently successful. It is based on the most strict principles of science, and in harmony with all Natural Laws. It strengthens and equalizes the vital forces of nature, removes obstructions to the nervous fluids, and restores the circulation to every organ of the body, thus giving the secretions a healthy action, re-vitalizing the functions of life and giving tone and vigor to the whole system. The treatment is not unpleasant to the patients with no indelicate exposure, and no medicines whatever are administered, except where he deems it advisable to prescribe certain vegetable preparations obtained through his peculiar instinctive knowledge, which combined with his successful magnetic treatment works a rapid and permanent cure.

JUST RECEIVED—A lot of very elegant Lace Points. E. C. NICHOLS & Co.

WE LEARN WISDOM FROM EXPERIENCE. When the complexion is pale or sallow it denotes vitiated blood and unhealthy secretions. By using FELLOWS' COMPOUND SYRUP OF HYPOPHOSPHITES regularly and observing the directions accompanying each bottle, for a few weeks, the blood becomes pure, the secretions of the body well disposed, the skin healthy, the features assume a more youthful appearance, while buoyant spirits indicate the return of health.

Headache, Neuralgia, and all nervous affections, banished by the use of BRIGG'S ALLEVANTOR, the most marvelous and successful remedy in existence for giving rest and relief to the weary and over taxed brain, producing in its action, a cooling, quieting effect in the excited, jerking, trembling nerves. A result so pleasant, agreeable, and satisfactory as to be almost unequaled in the annals of the various known remedies for Nervous Diseases. BRIGG'S ALLEVANTOR should find entrance into every household, where, by its own intrinsic merits it will sustain all the encomiums one can bestow in placing it before the public. A trial is all that is required to assert its superiority. Sold by Druggists. may26

THE GLORY OF LABOR.

The crow of Labor swells a wreath
Of purest wrought by hands of love,
Whose flowers shall triumph o'er death,
And ripen grow above.

When toil shall call the roller bones,
And summon him with his responsive,
Then shall the gains of eternal years
Reward the faithful.

And in their place shall shine the grace
Of immortality

With full makes Virtue a self his bride
And walks the path where angels might
Together walk all purified.

Without one fear of twilight,
Then may the gospel plow its way
Where Heaven like can be
Make earthly glory and how free.
From wanton shame and sin
Then may we learn how brightly born
The walk is great from within

Poor, silent creature of His hand
May work great ends to Him in vain

If He to free from stain
The selfish murk hon his three
